DEATH CALLS REV. FR. PETER HANLEY, 89, FOUNDER OF PASSIONISTS MONASTERY

Came to California Generations Ago as Pastor of St. Rita's Shrine

Rev. Father Peter Hanley, founder of the Passionists Monastery here, one-time pastor of St. Rita's Shrine and second oldest Passionist priest in the world, died of a heart attack at St. Paul of the Cross Monastery, Detroit, on Tuesday. He was 89 years old. For a generation his interest centered here in Sierra Madre where in 1924 he selected and purchased the site for the first Passionists monastery and retreat west of the Rocky mountains, the present imposing structure on Monte Oliveto, overlooking Sierra Madre and the San Gabriel Valley.

At the age of 70 he established a temporary mission on the site, serving as Superior, following a year's service as priest of St. Rita's Shrine. Three years later, the mission firmly established and while plans for the present monastery were being drawn, he asked to be relieved of his responsibilities because of advancing age and was transferred to a monastery at Chicago. After a few months he was assigned as chaplain of Hines Memorial Hospital, a veterans' institution near Chicago, where he was greatly beloved and remained for 13 years.

He returned to Sierra Madre and resided at St. Rita's parish house from the fall of 1941 until last June when he left for the Detroit monastery where he died.

Father Peter was born in Roscommon, Ireland, July 7, 1854. He came to America as a child, his parents settling in Providence, R. I., and commenced his studies for the priesthood at St. Mary's Seminary in Baltimore. After attending a Passionist mission in Providence, R. I., conducted by one of the Founding Fathers of the Order in America, Father Peter decided to become a Passionist. An ardent admirer of St. Paul on the Cross, founder of the Passionist Order in Italy, Father Peter walked the Passionist way of life for 70 years. During the long years of his priesthood, 64 in number, his talents were variously employed.

In 1923 he came to California and in September assumed the duties of pastor of St. Rita's Parish here. He remained a pastor for one year. In April of 1924 he selected and purchased the site on which now stands the beautiful Mater Dolorosa Laymen's Retreat House, in Sierra Madre. For the next three years he was Superior of the temporary Mission House.

Father Peter is survived by his nephew and namesake, Peter A. Hanley, pastor of Holy Trinity Church, Central Falls, R. I., and three nieces at Providence, R. I.

Sierra Madre Youth Sings Carols in Old Bethlehem

Pvt. Gene E. Nault, somewhere in the Middle East, writes his mother, Mrs. Clara Nault, 246 North Lima st., that his Christmas packages got through safely, and that the boys out there had a swell Christmas. Several of the men with his outfit had the unusual experience of singing their Christmas carols in the little town of Bethlehem itself. His brother, Pfc. Leonard Nault, now in Iceland, writes that the days are growing longer, and that the Northern Lights he had been waiting to see were like a giant rainbow dancing all over the sky. Beautiful to see but hard to describe.

Claims for Income Tax Refunds Must Be Filed by March 15

Claims for refund will be filed by more than 300,000 Southern California residents to secure payments of income taxes between now and March 15, according to an estimate made by Collector of Internal Revenue Harry Westover.

These claims will be largely filed by persons whose paychecks during 1943 were subjected to withholdings in excess of the actual amount of income tax they will owe for last year. Many persons whose only employment was during the holiday season or during vacation periods, and who had deductions taken from their paychecks will be entitled to refunds.

Refunds may only be secured by filing a 1943 income tax return. "My advice to taxpayers entitled to refunds is that the tax forms be filed at the earliest possible moment. A claim for refund filed in January may conceivably be acted upon in 30 to 60 days. But, if the claimant waits until the last minute rush, he will be fortunate to receive his check by September," said Westover.

KEEP ON... Backing the Attack! WITH WAR BONDS

Church Picks Five New Vestrymen

Five new vestrymen were elected at the well-attended annual parish meeting of the Church of the Ascension (Episcopal) Monday night. Rev. John S. Neal, the rector, gave an interesting report of the year's activities which revealed a strong, healthy growth throughout the church both in finances and membership and interest in the spiritual life of the church.

Reports were given of the three parish guilds and other organizations, all of which reflected the growth and development of the parish work during the past year under the leadership of their respective officers.

The five new vestrymen elected on the first ballot to take the place of the retiring members were: Walter R. Dedrick, 734 Fairview ave.; Merritt M. Williams, 310 E. Highland ave.; Harlan Ware, 271 Arbolada dr., Arcadia; James W. Pettit, 2575 Los Lomas ave., Pasadena, and Maurice H. Perkins, 50 E. Laurel ave.

Kit Bag Made Here Brings Thanks From the South Pacific

Sierra Madreans who helped prepare thousands of kit bags for men of the Army and Navy will be interested in a letter from Earl Pennington of the Navy, "somewhere" in the South Pacific. A resident of Glendale, he received one of the kits put up by the Sierra Madre Red Cross unit and wrote it as follows:

To Members Sierra Madre Red Cross: I would like to express appreciation to your organization for your contribution of the "Over-Seas Kit" I received yesterday. I noticed the name on the sick "Sierra Madre" and it brought back memories of what I ran in that town. I'm from Glendale myself. I really haven't much time to say more, but let me add, keep up the good work; you're doing a swell job, and remember that your organization is the finest in the world. Very sincerely yours, Earl L. Pennington, C.A.S.P. No. 39, V.T. Eng./c/o Fleet Postmaster, San Francisco.

In 1923 he came to California and in September assumed the duties of pastor of St. Rita's Parish here. He remained a pastor for one year. In April of 1924 he selected and purchased the site on which now stands the beautiful Mater Dolorosa Laymen's Retreat House, in Sierra Madre. For the next three years he was Superior of the temporary Mission House.

Father Peter is survived by his nephew and namesake, Peter A. Hanley, pastor of Holy Trinity Church, Central Falls, R. I., and three nieces at Providence, R. I.

DOUGHBOYS CREW MAROONED IN MOUNTAIN WILDERNESS PUT OUT BAIT FOR SANTA

Kiwanians Vote Dr. Woehler City's Most Useful Citizen

The Kiwanis Club has voted Dr. John L. Woehler Sierra Madre's most outstanding citizen of 1943 and its new president, Bruce McGill, awarded him the Charles B. Klunk trophy at the recent installation of club officers. The trophy is awarded each year to the citizen held by the club to be the most useful citizen and was held by Mr. McGill last year.

One very interesting thing happened on Christmas eve. One of the lieutenants had been out searching for disabled vehicles from the operation which ended Thursday. He ran across a half-track stuck way out away from everything. There were four or five boys in the crew, and they knew they would not be recovered in time to get in for Christmas. So they had cut a cedar tree and placed it by the half-track. They took oranges, feelings and K ration cans and decorated it, and put some of the presents they had with them in the half-track under the tree, also some oranges. Then they took sticks and stuck them in the ground and one across them, to which each had tied one of his socks—talk about morale!

The General gave us a very fine Christmas address in which he asked us not to be ashamed to call on Almighty God for strength or to feel it a sign of frailty, and in which he complimented us on performance thus far."

Mercury Drops

Sierra Madre experienced the lowest temperatures of the season during the week, the mercury dropping down to 38 just before daylight on Saturday and Monday mornings. During the bright sunny days the temperature has ranged in the 60-70 bracket. Temperatures for the week have been:

Max. Min.
Jan. 6 60 46
Jan. 7 60 40
Jan. 8 62 38
Jan. 9 62 36
Jan. 10 62 38
Jan. 11 64 40
Jan. 12 61 40

Rainfall: Jan. 6, .36; season, 8.84. Last season, 3.23.

Assessors at Work Here Two Months Ahead of Time

On the job two months earlier than usual because of the manpower shortage, three deputy county assessors descended on Sierra Madre Tuesday and laid the ground work for the annual assessment of real and personal property upon which city, county, school and flood-control taxes will be based. They called on hundreds of homes and nearly every downtown business house. Where

they were unable to get any response at the time of their calls they left notices warning property owners to file a statement within 10 days, if possible, and before April 1 to avoid penalties. The notices advised there will be no second calls owing to the shortage of field assessors.

On and after today there will be but one assessor at work here. He will establish an office at the city hall and probably hold forth there every Wednesday until the assessment is completed. Heretofore the annual assessment of property began March 1.

Club Adopts 1944 Youth Program

Downtown Swimming Pool is One of Six Points to be Urged by Kiwanians

A six-point youth program submitted by its youth service committee was unanimously adopted by the Sierra Madre Kiwanis Club at its luncheon meeting in the Masonic temple Tuesday.

Objectives of the club's 1944 program as outlined in the report submitted by School Superintendent Henry Korsmeier and Rev. Frederic Groeschen, co-chairman of the youth committee, and adopted on motion of R. C. Lewis, are:

1. To help promote summer recreation programs for the boys and girls of Sierra Madre.

2. To provide or make available needed dental and medical care for under-privileged children in the city.

3. To foster youth-adult relationship, working for a better understanding between the two.

4. To develop the "tin barn" Scout headquarters.

5. To recruit competent leaders on E. Montecito ave. for Boy Scouts and recreational programs.

6. To publicize the need for a swimming pool in downtown Sierra Madre.

4th War Loan Quota Here is \$125,000

Strong Appeal to be Made to Individuals to Ward Off Threat of Inflation

Sierra Madre's share of the huge amount to be raised in the Fourth War Loan campaign that opens next Tuesday, January 18,

is \$125,000. Individuals in Los Angeles county must buy \$156,410,000 worth of War Bonds during the month-long drive to meet their part of the \$349,810,000 quota for the county. The remainder has been allotted to corporations.

This announcement was made Monday by G. L. Alspach, chairman of the Treasury War Finance Committee for this community, who disclosed that Southern California's quota for the drive is \$436,000,000, or \$14,000,000 more than the total for the Third War Loan.

"Greater emphasis than in any previous drive will be placed this time on sales to individuals," Mr. Alspach said. "Through the aid of various community organizations, we plan to personally solicit every income-earning individual and sell him at least one extra bond during the drive. In fact, attainment of our large quota will depend on every citizen's taking a personal interest in the drive and digging as deep into his or her pocketbook as possible."

National goal of the Fourth War Loan drive is 14 billion dollars, of which 5½ billion dollars is to be raised directly from individuals, the latter amount being one-half billion dollars more than in the Third War Loan.

Securities to be offered will be: Series E, F and G Bonds, Series C Savings Notes, 2½ per cent and 2¼ per cent Bonds, and 7½ per cent Certificates.

Quotas assigned nearby cities are: Pasadena, \$11,000,000; Alhambra, \$2,500,000; Altadena, \$900,000; Arcadia, \$600,000; San Gabriel, \$350,000; San Marino, \$1,650,000; South Pasadena, \$1,100,000; Temple City, \$175,000, and Monrovia, \$750,000.

Toy Library Will Open This Month

Sierra Madre's Toyloan Library, which is being sponsored by the Junior Woman's Club, will have its official opening some time in January.

A Sierra Madre bld building formerly occupied by Draman shoe store has been rented and work is being started on decorating the interior for the library. Mrs. Margaret Fling, Toyloan director, has appointed Mrs. Amy Merrithew as the local Toyaren. Mrs. Merrithew has had years of experience with Toyloan libraries.

The library will be for use of children from two to 16 years old and is for all children in Sierra Madre. This library is not only to loan toys to children, but to give them toys that will interest them enough to keep them home instead of out wandering around the streets.

The junior women feel that this undertaking will help children develop a respect for the belongings of others, honesty, and that it is a very good character-building project.

There will be a regular Junior meeting Thursday, January 13, at 8 p.m., following which Mrs. Margaret Fling will again be present to give further details on the Toyloan Library. She is bringing movies with her and anyone interested in hearing her talk and seeing the pictures on Toyloan is cordially invited to attend.

Refreshments will be served following the meeting. G.D.

With Sierra Madre

Miss Marion Carleton, 73 W. Laurel ave., had a letter from her brother Bill Carleton, with the Merchant Marines, now in Hawaii.

Lieut. James H. McRoberts of the Marine Corps, son of Mr. and Mrs. George McRoberts, 536 W. Highland ave., enjoyed a two-weeks' furlough here in December. He was stationed at Hartford, Conn., and is now at Camp Miramar, San Diego, awaiting orders.

Pfc. Billy Evans, Marine Corpsman, stationed at San Diego, a former local postman, had a three-day pass during the Christmas holidays, which he enjoyed here with his wife and family.

Mrs. J. R. Evans, 717 W. Grand View ave., received a letter during the holidays from her son, Pvt. Bob Evans, telling her that he had arrived safely at his post in the South Pacific. He is with the Army Signal Corps and had been stationed at Camp Kohler, Sacramento, before being shipped out. He managed to send

Woman's Club to Have Dessert Bridge on January 19

The Sierra Madre Woman's Club will hold a dessert bridge at the clubhouse on Wednesday, January 19, at 1 p.m. Door prizes will be awarded. The public is cordially invited, and bridge players who are interested are asked to contact Mrs. Al Myers for reservations.

Business of Local Postoffice Jumps Nearly 20 Pct. in '43

Receipts of the Sierra Madre postoffice during 1943 shot \$4718.27 or 19.5 per cent ahead of the of the 1942 income, according to figures released yesterday by Postmaster R. O. Caukin. A glance back over receipts of the office since 1929 shows an increase of more than 100 per cent.

There was an upsurge in every department of the office during the last year, with a marked increase in air mail and the money order and registered letter busi-

ness. The volume of holiday mail was far and away above any previous year and the postmaster took occasion to express his appreciation of the manner in which the people of Sierra Madre complied with the suggestion to do their Christmas mailing early. "With a greatly reduced staff we could not have begun to handle the greatly increased volume as satisfactorily as we did without the fine co-operation of our citizens," said Mr. Caukin, "and everyone connected with the office is deeply grateful."

Are Children Leading Us, PTA Topic

"Are our children leading us, or are we leading them?"

That will be the subject of an address to be delivered at a meeting of the Sierra Madre Parent-Teacher Association in the art room of the grammar school building Thursday afternoon, January 20, by Mrs. Seymour Johnson of Pasadena, associate of Dr. Gertrude Laws, Director of Education for Woman of the Pasadena school system.

Mrs. Johnson, mother of two children—a son in the Navy and a daughter in the 12th grade at Pasadena Junior College—is said to have some very definite ideas on the subject. This will be her last public appearance in the West for some time, as she will join her husband on the East coast shortly.

Tea will be served after the meeting by mothers of the seventh and eighth grade pupils and all parents are invited to attend.

Founder's Day, anniversary of the organization of the Sierra Madre PTA unit, will be observed at a meeting on Thursday, February 17. An outstanding program for this occasion is being prepared by Mrs. Florence Petersen.

CITY'S OWN RED CROSS CHAPTER EQUIPPED TO RENDER A SURPRISING LIST OF SERVICES

Sgt. Arthur Connor is Back Home

Tech. Sgt. Arthur A. Connor, formerly of the Red Cross, is back at his home, 38 W. Montecito ave., having been given his honorable discharge from the Army at McCloskey General Hospital, Temple, Tex. A member of the ground force of a bombing group that was sent to the British Isles, he was hospitalized and returned to this country.

I wonder if anyone asked you about the activities of the local chapter of the Red Cross, if you could give a list of things it does. Outside the already publicly announced activities, I mean well, I couldn't so I decided to better look into the matter.

Did you know that the Red Cross has a Communications Inquiry Service? That only the Red Cross can send or receive a message from Axis or Axis-occupied countries and Japan? The messages are limited to 25 words, but 25 words can mean an awful lot when you haven't heard one word from a relative or dear friend in several years.

Your local Red Cross has sponsored Home Nutrition, Home Nursing and First Aid courses and can provide one on Accident Prevention, if enough persons are interested.

Did you know that we have here in town a disaster committee which includes a canteen service committee, a clothing committee and one on evacuation? That in case of disaster or bombing of a nearby town, Sierra Madre is fully equipped to care for 850 evacuated persons?

That we have a very active Junior Red Cross? The children have made hospital garments and games too numerous to mention. A call came through recently for mirrors—shaving mirrors—and that call was filled within a few days by the boys and girls.

Do you know that our chapter has given money for operations and hospital bills to parents of boys in the service when needed ... boys who were the total support of their folks?

These are just a few—you might say, minor activities of the Red Cross—but they make you stop and think, don't they? They did me—MRS. HAROLD DRURY, Publicity Chairman.

Many Leading Books About the War and Post-War Problems Now at Public Library

Shiber's "Paris Underground," "Russian Enigma," by Chamberlin, and Pyle's "Here is Your War" are only some of the books on the war and the post-war periods that arrived in the latest consignment to go on the shelves of the Sierra Madre Public Library for use of local borrowers.

Others are "Life of Greece," Durant; "Sword of Bone," Rhodes; "Under a Lucky Star," Andrews; "c/o Postmaster," St. George; "Our Young Folks," Fisher; "Air Navigation," Stewart; "My Native Land," Adamic; "Naturalist at Large," Barbour; "Battle is the Pay-off," Ingersoll; "New Treasury of War Poetry," Clarke; "Collected Lyrics" Millay; "Memoirs of a Superfluous Man," Nock, and "Kaiser Wakes the Doctors," DeKruif.

New fiction books are "Indigo," by Weston; "See What I Mean," Browne; "Dunnybrook," Carroll; "Tambourine, Trumpet and Drum," Kaye-Smith; "Twenty-Five Short Stories," Benét; "Weeping Wood," Baum; "The Promise," Buck; "We Followed Our

Hearts to Hollywood," Kimbrough. There were 2329 adult and 221 borrowers at the library during December and 18 new patrons registered.

Master Etcher Made His Art Look Easy to Arts Guild

Demonstrating his skill as an etcher who follows in the footsteps of early intaglio, Dr. Bernhard Wall, D.H.L., entertained members and friends of the Sierra Madre Arts Guild Friday night at Wistaria Vine Gardens by making an etching.

Many in the group, following a demonstration by Mrs. Wall, derived pleasure in preparing the finished plate for the press and in running off copies for themselves.

Dr. Wall, who is one of the world's leading etchers, received the "itch to etch" in 1914 and has 2300 plates to his credit. He has been an etcher of biographies since 1931. He says, "many people wish to etch but find difficulty in doing everything backwards and become discouraged, but if a plate is good, 100 people may have a copy, whereas only one may have a painting." He took his audience through the earliest forms of relief and intaglio into the Book of Exodus, where designs were made on golden plates, and on up to the works of the present day which still follow the methods of the masters of old.

Hostesses for the evening were Mrs. Leslie B. Wynne, Mrs. Robert Merriman, Mrs. Fletcher Flynn and Mrs. Alfred J. Dewey.

A party planned by the Harold Drurys of E. Montecito ave. for the weekend has had to be postponed because of the illness of Mr. Drury, a flu victim.

AMERICAN HEROES

BY LEFF

A B-25 was taking off somewhere in North Africa. It crashed and burst into flames. Private Eugene A. Gantner rushed forward with three other soldiers to aid the crew. The heat was overwhelming but Gantner and his companions, drenched from the hoses of rescue apparatus, rescued three crew members from the blazing ship. Then Gantner returned to remove loaded 50 caliber machine guns. He won the Soldier's Medal. Such are the men your War Bonds fight beside.

Women's Society to Continue Study of World's Peoples

The Women's Society of the Congregational Church will hold its first program meeting of the new year Tuesday at 12:30. Continuing the study theme of last year, "Understanding World Neighbors," the country to be studied for the next three months is to be India. Mrs. Homer Tuttle will give "Glimpses of the Land and People of India," to be followed by questions and discussion.

Brief news items of religious interest will be presented at the beginning of the program. As the annual dinner meeting of the church occurs on Wednesday evening, January 19, the ladies attending the program on Tuesday are requested to bring their own lunch. Hot tea and coffee will be served.

Honor Planned for an Early Resident

Mrs. Violet Gresham of Long Beach was a guest of Mr. and Mrs. A. V. Giuliany at 48 Vista Circle dr. during the holiday season. Mrs. Gresham, who is among the early settlers of this city, will return next week for a longer visit at the Giuliany home when open house will be held in her honor.

MARINE'S SERVICE COVERS THE GLOBE

The C. D. Shields family, 282 Santa Anita court, has had as a visitor an old friend, Sgt. I. Montplaisir of the 6th U. S. Marines. Sgt. Montplaisir has been with the Marine Corps for 17 years, and has seen service in Panama, Central America, and more recently, in Iceland and the Solomon Islands. His 30-day furlough from the South Pacific area is about up, and he will report back for duty shortly.

NOTED PIANIST AT SYMPHONY CONCERT

Lillian Steuber, noted young Southern California pianist who has appeared with major symphony orchestras throughout the country, will be soloist with the Pasadena Civic Orchestra at the concert to be given at 2:30 p.m. Sunday, January 16, at Pasadena Civic Auditorium. The concert is open to the public without charge.

LOCAL GIRL TO HEAD COLLEGE DANCE

Bissie Betty Jo Adams, daughter of Mr. and Mrs. Roland Adams of 217 West Highland ave., a student of Whittier College, will be social chairman of the annual A.W.S. Poetess Prom to be held on January 15 at the Whittier Woman's clubhouse. The dance will be formal, and among other invited guests will be a number of service men from the Santa Ana Air Base.

OBITUARIES

FRANK THOMAS

Frank Thomas, a retired railroad machinist, aged 81 years, of 103 East Montecito ave., died Saturday, January 8. He was born in Winona, Minn., and had been a resident of Sierra Madre for the past 20 years. He was a member of the Odd Fellows and leaves no relatives, his wife preceding him in death in 1942.

Services were at 11 a.m. Tuesday, January 11, at Grant Chapel. Mrs. Clara Billings read the Christian Science service. Interment was in San Gabriel Cemetery.

MRS. MABEL RUTH DOW

Mabel Ruth Dow, aged 71, of the Huntington Hotel, Pasadena, a former resident of Sierra Madre, died in a Pasadena hospital on January 6. She was born in Kingsley Falls, Canada, and was a graduate of Emerson College, Boston, and was a well-known teacher of public speaking at Knox College, Galesburg, Ill. Mrs. Dow was a member of the D.A.R., and a former member of the Hollywood Woman's Club. She is survived by her brother, E. D. Burbank, of Sierra Madre. Services were held at Grant Chapel on January 8. Dr. Arthur O. Pritchard officiating. Interment was private.

LOUISE H. ANDREWS

Louise Holmes Andrews of 15 East Mirra Monte ave., fiction writer and resident here for two years, died January 6 at the age of 54. She was born in Laramie, Ia., and is survived by a brother, Don Holmes of Conley, Ga. Mrs. Andrews was a member of the P.E.O. and of the Presbyterian Church.

Services were at 2 p.m. January 9, at the Church of the Ascension, Rev. John S. Neal officiating. Pall bearers were Harlan Ware, Ronald Carnall, Ellsworth Simpson, John Hibbard, Frank Andrews and William Wilkinson. Interment was in the Mountain View mausoleum. Grant Chapel was in charge of arrangements.

AUGUST BENZ

August Benz of 75 Esperanza ave. passed away on January 9, at the age of 89. A retired poultry rancher, he was born in Germany, and had been a resident of Sierra Madre for the last 15 years. He is survived by his wife, Anna Benz of Sierra Madre, and a brother, Theodore, of Hasen, Germany.

Mr. Benz was a member of the Masonic Lodge and of the Lutheran Church. Joint services were held at Grant Chapel at 2 p.m. January 12, Dr. Arthur O. Pritchard officiating. The Masons had charge of the interment services, and acted as pallbearers. Interment was at the Sierra Madre Cemetery.

STATE PICNICS

The 1944 theme of State society picnic programs during the year is: "Let's do more to help win the war in '44." Picnics scheduled for January are: Illinois, January 22, and South Dakota, January, both of which will be held at Sycamore Grove, Los Angeles.

Sierra Madre NEWS

A New Eteri Club is Organized at Bethany Church

A new Eteri Club, composed of girls of high-school age, under the leadership of Miss Natalie Romans of Los Angeles, was organized at a dinner meeting in the annex of Bethany Church on December 29, when Miss Romans was presented with a nosegay with 17 one-dollar bills attached, each bill representing one year of Miss Roman's service to the former Eteri Club, now Eteri Alumni Club.

First meeting of the new club was held at the home of Mrs. J. R. Evans, E. Grand View ave., when officers were elected and it was decided to observe the custom of the first Eteri Club and hold a supper meeting once a week. Members of the club are the Misses Phyllis Nuttal, Patricia Walters, Evelyn Stranke, Donna Mae Bennet, Betty Babbitt, Shirley Rae Kearns, Louise Edwards, Frances Evans, Rita Mae Dotts, Joyce Fergus, Carolyn Kopp, Marilyn Scoville, Dorothy Smith, Eileen Smith and Viola Terhorst.

The Alumni Club is now a dessert club, meeting every two weeks. Its members are: Muriel Fitchett, Betty Bush, Dorothy Moote, Mary Sheriff, June Eastwood, Lillian Howard, June Barnard and Beth Harvey.

Physician Here to Retire May Practice Till Peace Comes

Dr. and Mrs. W. T. McDouall, formerly of Kansas City, have purchased the John S. Bilheimer home at 70 Auburn ave. and will make their home here. Dr. McDouall was connected with the Bethany Hospital in Kansas City for many years. He came here on retiring, but due to scarcity of physicians during the emergency, is considering practicing again to help relieve the situation here until the war ends.

Librarian's Father Breaks Hip in Fall

A. D. Moore of 419 E. Highland ave., aged 85 and father of Miss Lulu Moore, librarian at the waystation at his residence, fell and broke his hip Monday and is now in the hospital at 122 N. Baldwin ave., where he will probably remain for some time.

Opera in English Season Will Open Next Tuesday

Lillian Fawcett, world-famous young soprano, who will sing the role of Marguerite (Violetta) in the American Music Theater's "La Traviata" to be given Tuesday, January 18, at 8:20 p.m. in Pasadena Civic Auditorium as the opening feature of the fifth annual season of opera in English. Others in the cast will be Charles Platte, John Shafer, Henry Reese, Blossom Benson, Rece Saxon, Randolph Symonette and Mary Lou Perry. James K. Gutierrez will conduct the large orchestra and chorus.

Many War Training Courses Being Opened at Cal-Tech

The midwinter war-training program at California Institute of Technology will be in full swing within the next two weeks, with classes being formed now on a myriad of subjects. These courses are tuition-free and are designed for defense workers and those who intend to get into the war industries after completing the training.

At Pasadena Junior College classes are being formed in engineering drafting and production illustration.

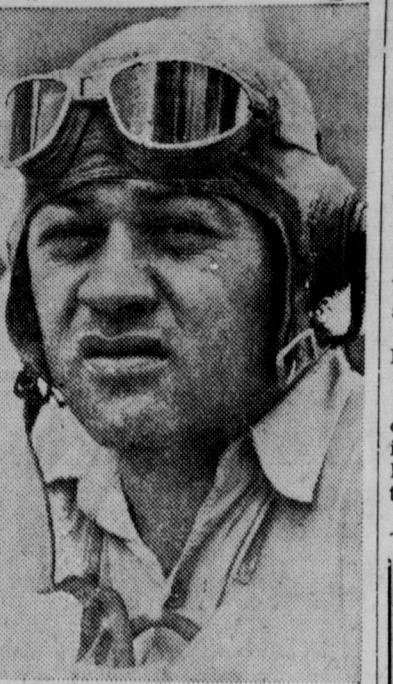

On the Caltech campus, courses to be taught later this month include plastics, plastics design, design for aircraft, electronic circuits, ultra-high frequency radio engineering, and many courses in production engineering at industrial relations.

Information on any of these courses may be obtained at the Caltech War Training Office, 1201 East California street, Pasadena 4. The telephones are SYcamore 6-7121 and RYan 1-6751.

Missing Ace

Sam'l McElfresh II Arrived on Jan. 6

Cards announcing the arrival on January 6 of Samuel Henry McElfresh, 8-pound 11 1/4 ounce son of Thelma and Sam McElfresh, at their home on Brent ave., South Pasadena, were received by many Sierra Madreans yesterday. Mr. McElfresh was one of the most popular teachers ever engaged by the local school board and he and Mrs. McElfresh, also a teacher, resided here until about a year ago when Mr. McElfresh entered the production control department of the U. S. Spring & Bumper Co., working on munitions. Still frequent visitors to the city, Mr. McElfresh has retained his membership in the local Kiwanis Club.

Here and There

by DEAN A. G. H. BODE

WE all notice how much is being said about the post-war world. There are two points on which we are coming to general agreement. One is that we are returning to a stronger faith in the reality of a righteous Ruler of the universe, and the reality of absolute values of rightness and justice and goodwill, which are His laws. Of course the belief in God, the Supreme Goodness, is characteristic of Christian people, and God is recognized in our "Invocations" in assemblies in schools, lodges, political conventions and legislatures. In spite of this we know we have been running things without much reference to Him, sometimes in opposition to His will. We find we must come back. There is a strong agreement on this today.

Entered as Second Class Matter at the post office at Sierra Madre, California, under the Act of March 3, 1897. Official paper of the City of Sierra Madre

The brotherhood of man is an integral part of Christianity no less than the Fatherhood of God; and to deny the one is no less infidel than to deny the other.—Lyman Abbott.

REASSURING

While a good many of our millions of war workers may be spending their checks as fast as they get them, with little or no thought of tomorrow, there are many others, with the depression still fresh in their minds, who are taking advantage of the period of boom wages to create their own post-war employment programs.

Thousands of war workers, according to surveys just concluded, are putting part of their paychecks each week into buying small businesses, or developing businesses owned by members of their families. And even a greater number have bought farms—and are making regular weekly or monthly payments on them, planning to have them clear of debt by the time they quit their war jobs and are ready to begin farming. Fully half of this number are farm boys, temporarily in city jobs, or former farmers, who lost their holdings during the depression, but are determined to get back to the land.

To many of these men, crowded into cheap, war-time housing projects, and weary of traffic jams going to and from work, the lure of a home on the range is greater than ever before—and thousands of them are taking the necessary steps to make their dreams come true. It is one of the happier, more reassuring developments of our hectic war-time boom. And the whole country will be the better for it.

PLAY SAFE

Boom times, with wages high and money flowing freely, inevitably bring racketeers and grafters following closely the wake of prosperity. It makes no difference to them if the prosperity is a false one created by ghastly, world-wide war, or a healthier upswing in men's fortunes.

Petty swindlers have been abroad in California since war industry payrolls began to climb two years ago, and a new influx of bigger operators is due in rural communities, according to indications.

Eastern racketeers whose records are known and whose tactics are smooth as those of a professional gambler with an extra ace, are headed West to clip their bit of golden fleece from the too unwaried, law officers report.

Probably the least savory type of swindler now operating widely, offers to sell information allegedly heard over the shortwave radio concerning loved ones in enemy prison camps. Bilking workers out of hard-earned pay on war jobs is base enough, but capitalizing on the worry and grief of soldiers' families is contemptible.

Such information offered at a price, invariably is not worth the price, for it can be had free through agencies of the Red Cross, organized and financed for that purpose. This is one racker of disruptive and demoralizing effect, playing directly into the enemy's hands.

There is little good in philosophy over the quirks in some men's nature which permits them to take unfair advantage of their fellows in times of stress and difficulty. Man's inhumanity to man is as irrevocable on the one hand, perhaps, as man's gracious benevolence on the other.

When one comes face to face with a racket these days, there are just two things to be done—both practical and patriotic. One: Report the circumstance immediately to the police. Two: Nullify any temptation to invest in unknown propositions by putting all extra and unneeded cash into government war bonds.

Every man with a Victory garden should keep the name in mind. If he surrenders to weeds, bugs, heat or sore muscles his victory is beyond what he finds in his present life in civilization either at work or abroad. Gandhi has said: "The salt of the earth

is to be found in the millions of little, unspoiled, unsophisticated homes all over the world."

We have a remarkable statement from Dr. L. P. Jackson, warden of Mansfield College, Oxford, and editor of the Hibbert Journal. He says: "The common man is not an inferior person on whom the wise look down as ignorant and the polite as vulgar. He is a superior person to whom the wise look up, and from whom the polite derive whatever of their polish is not fictitious but a glow from within. He of all men is the one who lives by reason, but reason in the sublime sense given to the word by Kant, and not in the sense of those who confuse it with rationalism, argumentativeness and the exchanges of logic-shot. The common man goes straight to his mark, in contrast to those who approach the mark circuitously and lose themselves on the way. The conversation of the common man is 'yea, yea' and 'nay, nay.' You discern what he believes by what he does, not by what he says, at least not by that alone. Reading his belief from his actions, it is clear that he believes in is the everlasting difference between good and evil, true and false. 'Yes,' said Emerson, after hearing a pessimist prove that this is the worst of all possible worlds, 'yes all you have said may be true, but what is that in you which knows it?' Answer: The common man. He knows the everlasting difference between good and evil, true and false." If this be true, our two points meet in the so-called common man. It is to his unconscious faith in the Good that we are asked to turn. Some of us call it God.

Dr. Claude A. Watson, the Prohibition Party nominee for President, who hails from L. A., certainly has a great penchant for rushing in where angels fear to tread. Refused travel priorities on the air lines to conduct his campaign, Dr. Watson is demanding: "If Eleanor (Roosevelt) can fly, why can't I?" And he's insisting on a congressional investigation to determine how Mrs. Roosevelt rates her special flying privileges.

Dr. Claude A. Watson, the Prohibition Party nominee for President, who hails from L. A., certainly has a great penchant for rushing in where angels fear to tread. Refused travel priorities on the air lines to conduct his campaign, Dr. Watson is demanding: "If Eleanor (Roosevelt) can fly, why can't I?" And he's insisting on a congressional investigation to determine how Mrs. Roosevelt rates her special flying privileges.

Tonnage of all aircraft in 1944 may run 325% ahead of 1942, according to Bendix Aviation Corp., which reports that the industry at its peak will employ 1,700,000 workers, with 1,400,000 more working for aircraft sub-contractors and suppliers. Even for this prodigious volume, we have the materials. In fact, aluminum is now present in large quantities than needed for strictly war purposes. In 1943 its output rate reached 2.1 billions of pounds annually. Roy A. Hunt, president of Aluminum Company of America, recalling the fears of aluminum shortage that swept the nation in 1941, says that the fears have now been answered by imports of aluminum in definite and growing surpluses over military needs. Another and equally vital raw material problem also has been met. America is now able to make at home more rubber than we ever consumed in a single year. But we are warned that conversion of rubber product manufacturers from natural to man-made rubber must be accomplished at an increasingly rapid rate because of the decreasing supplies of crude rubber, still necessary in the manufacture of some rubber products. "The large war-born synthetic rubber industry is expected to achieve its rated annual capacity of approximately 800,000 tons by July."

LT. COL. J. P. DEVEREAUX, Burlingame, in Jap prison camp after commanding heroics and historic defense of Wake Island, in letter to son here—"The Marines at Wake did quite well and I am proud of them."

DR. MERLE E. FISH, Pico Heights Christian Church, L. A.—"We have war, unhappiness, destruction and chaos today because men have made their spiritual experience secondary to their selfish desires."

SOME of those whom Life magazine calls illustrious leaders have said "the present evils are due to the failure of nations and peoples to carry out the laws of God." (Should anyone ask how we can know the laws of God, it is generally accepted that Christ showed us those laws.) His teaching, that all people in all nations are members of one family, under the Fatherhood of God, must be the foundation of government and social life—of a new order in the post-war world. It is obvious that the world has not been running on this principle, and needs putting to rights. Of course, before we can put the world to rights we must put ourselves to rights. But some Christian people have been putting themselves to rights for 50 years while letting the world go to the devil. It is interesting that Life magazine, in the Christmas number, notes that Christians under the present reassertion of the need of returning to religion have veered away from the problem of saving only the individual to the problem of establishing upon the earth a real brotherhood of man—a human family where each can have daily bread, opportunity, and a just share of the good things of the earth "which He has given to the children of men." Whenever you go to church, au-church, you will hear of bread, daily bread. Bread for yourself is materialism, bread for others is a part of religion. This is all return to real religion. We are coming to agreement on this point.

As to the second point of agreement, the opinion grows that it is not the present-day conquerors or leaders who make the future. It is the character of the people throughout the world—the common people.

In a very old book, older than

the New Testament, it is said of the working people of the world that though they do not sit in the councils of the great, yet "these bear the fabric of the world and in the hindwark of their craft is their prayer." The best part of history is mostly unrecorded. It consists in the love and kindness and labor of the innumerable company of these obscure and anonymous folk who have carried the work of life from one generation to another.

MURIEL Lester, speaking of Dr. Tello, a great archaeologist of Lima, Peru, said, "He has become deeply disillusioned with civilization. He was once a poor village boy. An aunt in Lima had him educated and he became first an M.D., and then an archaeologist, the equal of those of his profession in the United States, London, Oxford and Cambridge. He ponders on the fact that his village home, his father's religion, the ethical standards of his own people, their unconscious generosity, their sincerity are beyond what he finds in his present life in civilization either at work or abroad. Gandhi

has said: "The salt of the earth

SIERRA MADRE NEWS

is to be found in the millions of little, unspoiled, unsophisticated homes all over the world.

Even the gas shortage has its amusing sidelights. For example: Ralph K. Davies, deputy administrator for the Petroleum Administrator for War—and one of the most powerful figures in the oil world—was stranded at Vallejo for two hours the other day, because his car ran out of gas (and oil stations were dry) when he was returning to the Bay District from a trip to see Governor Earl Warren.

Dr. Claude A. Watson, the Prohibition Party nominee for President, who hails from L. A., certainly has a great penchant for rushing in where angels fear to tread. Refused travel priorities on the air lines to conduct his campaign, Dr. Watson is demanding: "If Eleanor (Roosevelt) can fly, why can't I?" And he's insisting on a congressional investigation to determine how Mrs. Roosevelt rates her special flying privileges.

Did you eat 130 pounds of meat in 1943? Well, according to Government experts, you did. And these experts say that in 1944 you will eat more meat—one pound more, to be exact—if their expectations are fulfilled. You will not have a wide variety of meat—pork will make up about half of it. In fact, the whole food outlook for this year is not one to delight those who "go" for a wide choice of edibles. But for the "solid" eaters—those who enjoy potatoes, beans, cereals, and the like—there will be just about all they can eat. Maybe more. In other words, it looks like quantity, but little variety. All this means that if Mrs. America is to avoid having bored appetites at the dinner table, she will have to dig into her bag of tricks or into a cook book for new and different ways of "dishing it out."

We are going to have a big cleanup in 1944. Not only that, but everything is going to be ironed out, too. How do we know? Well, 50,000 bathtubs can't be wrong—and that's the number that are going to be manufactured this year after nearly two years of bathtubless production. The reason for stopping the output of tubs in 1942 was, of course, to save metal—not water. As to the other pressing problem—that of electric irons—we're going to have millions of them—two million to be exact. And they won't be rationed. Anyway, the production plug has been pulled—and the heat is on!

A German officer, captured in the Tunisian campaign, asked to be shown the "secret weapon" that made our artillery fire so deadly accurate. There was so secret weapon, but back of that amazing accuracy is a story—a story of an "impossible" achievement. Prior to the war, 90 percent of our precision lenses came from Europe—chiefly from Germany. We couldn't approach the accuracy of the German product, we were told. Something had to be done. Starting from scratch in the mass production of precision devices—gunsights, periscopes, binoculars—the prisms on some of which have to be accurate down to 2/1,000,000ths of an inch, American manufacturers didn't know it "couldn't be done"—so they did it. Now our products are superior to the best the Germans ever turned out. America is bigger than it was two years ago, more conscious of what it can do, and more than ever aware that there is no "impossible."

There is no such thing as "waste" paper any more. Every scrap of paper is valuable. American mills which turn out containers for blood plasma, food and ammunition have less than a two weeks' supply on hand. "Too much waste paper is being burned or destroyed," declared Edwin S. Friendly, chairman of

Sale of Christmas Seals Sets Record

The most successful Christmas Seal sale in its history is being completed this month, according to Bernard C. Brennan, president of the Los Angeles County Tuberculosis and Health Association. He reports that \$241,143.76 has been received to date as compared to \$175,158.27 for the same period last year. This is an increase of \$65,985.49. Subscribers who have not yet taken time to send in the money for their Christmas Seals are urged to do so at once so that final returns may be tabulated and the budget planned for the coming year's work.

Loosens Up Thick Choking Phlegm of Bronchial Asthma

Spend 45¢ today at Royal Cut Rate Drug or any drug store for a bottle of Buckley's CANADIOL Mixture (triple acting). Pour yourself a teaspoonful, let it lie on your tongue a moment, then swallow slowly. Feel its instant powerful effective action spread through throat, head and bronchial tubes. Starts at once to loosen thick choking phlegm making breathing easier. No claim is made that Buckley's is a cure for Chronic Bronchitis or Asthma but sufferers often find Buckley's CANADIOL Mixture (the largest selling cough medicine in all Canada) ease coughing spasms and loosens up that choking phlegm which seems to clog the tubes and make breathing difficult. Many get better night's rest. Try Buckley's on our guarantee of satisfaction or money back. —Adv.

RATION DATES

SUGAR-Coupon No. 29 in Ration Book 4 good for five (5) pounds through January 15.

MEATS, CHEESE and FATS—Brown Stamps in Book No. 3 are good for 16 points as follows: R good Dec. 26 through Jan. 29. S good Jan. 2 through Jan. 29. T good Jan. 9 through Jan. 29.

CANNED FRUITS AND VEGETABLES—Green Stamps D, E and F in Book 4 valid Dec. 1 through Jan. 20. Green Stamps G, H, I in Book 4 valid Jan. 1 through Feb. 20.

SHOES—Stamp No. 18 in Book No. 1 good for one pair rationed shoes indefinitely. Stamps No. 1 of Airplane Sheet in Book 3 valid Nov. 1 for indefinite period.

TIRE INSPECTION—"B" book cars next deadline Feb. 28. Deadline for "A" book cars March 31.

GASOLINE—Coupon A9 in New "A" book valid through Jan. 21.

STOVES—Consumer purchases of rationed stoves must be made with certificates obtained at local War Price and Rationing Boards.

Family Feuds in a Small Town are Theme of Play

"Kiss and Tell," riotous farce by F. Hugh Herbert, will open 1944 for playgoers in Pasadena and its vicinity. A George Abbott production, the comedy comes to Pasadena Civic Auditorium Tuesday night, January 25, for one performance only. It will be presented by Ware-Hazelton, Pasadena impresarios, who by arranging for the California run of the New York plays that are on tour are able to bring the best in the theatre to this community. The comedy has played contin-

dously since its Broadway opening when it became an instant hit. With companies now playing in New York, Chicago and Philadelphia, "Kiss and Tell" comes to Pasadena after a 10-week triumph in San Francisco. Though the story centers around neighboring families in a small town feud, the younger members of the families, in one predicament after another, starting when two young daughters set kisses for charity, are responsible for much of the fun and laughter.

The national grapefruit crop during the 1942-43 season was by far the greatest ever produced, 15 per cent greater than the record-breaking year of 1938-39.

to shelter by a sudden rain storm. Regardless of which side wins, the firemen all look forward to a good time in the very near future. That's why we can expect an attendance of 100%.

It was a great occasion when seven of the 20-year firemen got together recently. Circumstances prevented a celebration. All dressed in full uniform, Bill Richards, Jim Heaslip, Milt Steinberger, Lee Hibbs, Vern Udell, Frank Hildebrandt and Joe Swanson made quite an impression as they appeared together.

There are a great many new-

comers to our city. It is the Fire Chief's earnest desire to prevent discord among neighbors. When a new neighbor causes discomfort to a community by burning an incinerator or rubbish at a wrong time, a member of the fire department will be glad to investigate without creating a neighborhood feud. Most people are pleased to obey the rules and operate when they understand the rules. For some unknown reason, Sunday has been a day of fire calls of late. The past five Sundays has brought in four fire calls.

* This advance is secured in accordance with the terms of the Federal Home Loan Bank Act as amended.
** Includes \$84,445.98 of other Associations participating in construction loan pools.

Above statement after paying semi-annual dividends, December 31, 1943.

AUDITOR'S CERTIFICATE

We have examined the balance sheet of the First Federal Savings and Loan Association of Pasadena as of December 31, 1943, and the statements of operations, individual assets and reserves for the semi-annual period then ended, have reviewed the system of internal controls and the accounting procedures of the association and have examined or tested accounting records of the association and other supporting evidence, by methods and to the extent we deemed appropriate.

In our opinion, based upon our examination, the above balance sheet presents fairly the position of The First Federal Savings and Loan Association of Pasadena at December 31, 1943, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal period.

With Sierra Madre Boys in Service

Continued from page One

Procurement for the Eleventh Naval district. By meeting the basic requirements for this specialized branch of the naval service Brock was able to qualify for enlistment in the Navy's V-5 program. To be enlisted as future naval aviation cadets young men must be between the ages of 17 and 19, high-school graduates or seniors who will be graduated not later than June 30. Brock's first tour of duty will probably be at one of the colleges or universities now under contract to the Government. As a member of the Navy's V-12 college training program, he will receive two full semesters of academic work before taking his second step in his naval aviation career. In statement issued by Admiral Johnson of the 11th district he said, regarding the enlistment of young men for aviation training, "The enlistment of 17 and 18-year-old men for future naval aviation training is our insurance against the horrors of another Pearl Harbor. These men, as skilled naval aviators, will be the spearhead of our drive towards complete victory."

Friends of Pfc. Bruce Smith, who was with the Army Adjutant General's section in Newfoundland, will be glad to hear that his application for Air Cadet training was approved. He was home for a few days during Christmas week, and left the Thursday after Christmas for his new station at Keesler Field, Miss. He is a son of Mr. and Mrs. J. O. Smith of 609 W. Sierra Madre blvd.

Sgt. and Mrs. Jack Harris, 476 Sturtevant dr., have just returned from an eight weeks' trip to Ohio, where Sgt. Harris attended a special ordnance school in Toledo.

Jack S. Shearer, C.M. 1/c. U.S.N.R., was home on a weekend leave from San Diego, visiting his relatives at 91 East Laurel ave.

Don Ward, son of Mr. Marjorie Ward, 62 Suffolk ave., is home on an emergency leave owing to the recent death of his father.

Mr. and Mrs. W. G. Hopper, 317 N. Auburn ave., had

Christmas letters from their two grandsons, S. 1/c G. Wendell Hopper Jr. and Thornton Edwards, 3rd, both with the U. S. Navy. Grandparents and friends here were pleased to hear that both boys are safe and well. Thornton Edwards, who has been in the Navy over four years, has seen service in Alaska, the South Pacific, and is now in Atlantic waters. He was on the Yorktown when the aircraft carrier was sunk.

Wayne Bechtelheimer is enjoying a 13-day furlough at the home of his mother, Mrs. Hazel Post, 648 Holly Trail path. He has graduated as a flight officer from Williams Field at Chandler, Ariz., and will be stationed at Chico, Calif., as a basic instructor.

Scholarships Open for Students Here

Sierra Madre high school and junior college students will be eligible to participate in competitive examinations on February 12 for \$7500 in high school and junior college scholarships offered by Pomona College in Claremont, it was announced this week.

Twenty high school scholarships, four for \$500, and four for \$350, will be awarded to students entering Pomona College in the fall of 1944. Applications will be received until January 16.

Fur Jackets

Real values... All-season Fur Jackets to wear smartly over suits, dresses, everywhere you go. Sturdy, warm, and tremendously flattering... they're styled to give you years of wear.

RESTYLING AND REPAIDING

FURS

* Frank Peterson, 521 East Orange Grove ave., has been granted a permit, and will build a garage on his property there.

* Miss Ethel Wragg of Montecito ave. is leaving for Mexico City shortly, where she expects to spend several months. Miss Wragg lived in the Mexican capital for a time, being connected with the U. S. Consulate there. She says it is very beautiful and that the climate is wonderful at this time of year.

* Mr. and Mrs. R. C. Lewis spent a pleasant New Year's day in Long Beach, visiting members of their family.

* Mr. and Mrs. Jack Dana moved on Saturday from 721 Brookside lane to 607 Woodland dr.

* Miss Goldie McKee and Miss Katie Mann of Sierra Madre, accompanied by Corp. Don Jensen and Michael McBride, now stationed at San Diego, spent Saturday evening dining and dancing in Los Angeles' unique Chinatown. Both of the service men are from the midwest, and enjoyed the novel flavor of the evening very much.

* Miss Gladys Sixta of Chicago, Ill., is a visitor here, a guest at the Sierra Madre Hotel. Miss Sixta is a close friend of Miss Jean Edwards of 484 Mariposa ave. Miss Jean Edwards, Eleanor Edwards and Miss Sixta attended a private studio showing Monday evening of "Lady in the Dark" at the Paramount Studio in Hollywood.

* Carl T. Coit, 595 Elm st., has a warm spot in his heart for the boys in the service, and proves it. Busy as he is found time Thursday to bring in a huge collection of reading matter to the News office for the fellows at the Camp Santa Anita.

Edward Vorhees of E. Mir Monte ave. also brought in a nice collection of books and magazines.

* Miss Gladys Sixta of Chicago, Ill., is a visitor here, a guest at the Sierra Madre Hotel. Miss Sixta is a close friend of Miss Jean Edwards of 484 Mariposa ave. Miss Jean Edwards, Eleanor Edwards and Miss Sixta attended a private studio showing Monday evening of "Lady in the Dark" at the Paramount Studio in Hollywood.

* Mrs. Eileen Tindall Atterbury has accepted a position as laboratory technician in the offices of Dr. J. Earl Gossard. Mrs. Atterbury had her training at the Army base, Kingman, Ariz., where her husband, Sheldon M. Atterbury, is at present located with the Army Training Corps.

* The Edward R. Halperin family, 62 East Carter ave., were happy to greet Mrs. Halperin's mother, Mrs. W. A. McFarland, who arrived from the East on Sunday night. Mrs. McFarland will remain for a short visit before returning to her home in Los Angeles.

* Mrs. Bessie R. Boyer of Westwood spent several days last week at her Canyon Park home on Vista Vista dr.

* Sunday dinner guests of Mr. and Mrs. B. G. Bleasdale, 390 Sycamore pl., were Mr. and Mrs. K. A. Coker of Whittier, former property owners in Canyon Park.

Wilson Hi Boys for Business Careers; Not So for Girls

The majority of boys, 99 per cent, at Woodrow Wilson Junior High school are in favor of owning their own business; but the majority of Wilson co-eds, 45 per cent, are in favor of entering a profession. This was revealed by a tabulation of votes taken by the Wilsonian staff for the Institute of Student Opinion, poll number three, concerning the choice of a career.

Six choices for a career were offered the balloting Wilsonians. Sixteen per cent of the boys felt they would like to enter government service as compared with 9 1/2 per cent of the girls. Working for a large business or industry appealed to 16 1/2 per cent of the girls, closely followed by 15 1/2 per cent of the boys. Ten per cent of both boys and girls voted in favor of working for a small industry. In the minority was agriculture with only 3 per cent.

* Mr. and Mrs. Flint E. Stenden and daughters Barbara and Beverly, 595 Woodland dr., spent Saturday in Los Angeles visiting Mr. Stenden's parents.

* Friends of Mrs. Norton Cooksey, 701 Skyland dr., will be sorry to hear that she was taken to St. Luke's hospital on December 22, critically ill with pneumonia. Mrs. Cooksey is now past the danger point, and slowly improving, but must cancel all appointments she had made previous to her illness.

* Mrs. Eileen Tindall Atterbury has accepted a position as laboratory technician in the offices of Dr. J. Earl Gossard. Mrs. Atterbury had her training at the Army base, Kingman, Ariz., where her husband, Sheldon M. Atterbury, is at present located with the Army Training Corps.

* The Edward R. Halperin family, 62 East Carter ave., were happy to greet Mrs. Halperin's mother, Mrs. W. A. McFarland, who arrived from the East on Sunday night. Mrs. McFarland will remain for a short visit before returning to her home in Los Angeles.

of the girls and 14 per cent of the boys favoring it.

Income Tax Course Organized for Adults at P.J.C.

Sierra Madreans who are puzzled by their income tax returns will be glad to know that the Pasadena Junior College is offering an income tax course. It meets Thursday evenings, is free and the time is 7 until 9:30 p.m. in Room 200 lecture hall of the central building. The first class will cover the filing of returns, the selection of type of return and the determination of non-taxable income. Martin Pearson, a recognized expert, will be in charge of the classes.
